

**PACKINGS**

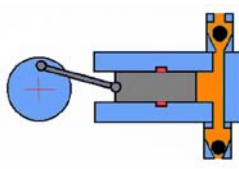

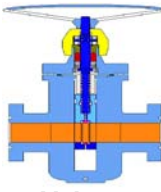

# DONIPACK 3051

## PROPERTIES AND APPLICATION

Donipack 3051 is braided from cotton yarns, impregnated with mineral lubricants and graphite particles. Due to graphite particles this packings have very low friction

This packing can be used rotary pumps applications for sea water, process water and low acid or alkaline concentrations.

## APPLICATION PARAMETERS

	 Rotary pumps	 Plunger pumps	 Valves	application
v [m/s]	8		2	Water treatment Mining Marine Utilities
t [°C]	-20....+100			
pH value	6.....9			
p [bar]	30	10	40	
density [g/cm <sup>3</sup> ]	1.2			

### Benefits:

- cost effective for basic applications
- soft and flexible
- easy manipulation

### Availability:

On creels (KG) in standard sizes between 3 - 25mm (square bigger than 25mm on request).
